The Duty Prosecutor Unit Exercises Prosecutorial Supervision 24 Hours a Day Without Interruption

Duty prosecutors work around the clock in order to carry out prosecutorial supervision continuously and promptly, resolve specific issues without delay in urgent cases, ensure the uniform application of the law during investigations, and safeguard human rights and freedoms. In exercising their supervisory functions, duty prosecutors cooperate with the Cybercrime Department of the National Police Agency. If you fall victim to online fraud and contact the police without delay, the account concerned can be frozen with the prosecutor's authorization and measures taken to protect assets.
